THE Express has a great deal to say about the misrepresentations of the HERALD, but it is careful not to designate our charge that while claiming to be a Republican organ and accepting support from that party, it was induced to advocate the election of a Democratic candidate. The little traitor does not charge this as one of the "things that are lies."

THE little ring organ charges that Mr. Sabichi is the Water Company's candidate for Mayor. This is too thin to hide Mr. TIFFANY. Mr. SABICHI is a large man, but large as he is, the lion's skin is too short and the uncovered ears betray the animal beneath. Mr. Sabichi will not care to be used as a make-believe candidate of the Water the position, Dr. WILKINS, was defeated Company for the purpose of inducing for the sole reason that CY. WHEELER citizens to support their real candidate, Mr. TIFFANY.

THE Eveniug Express denies that it born citizens by an invidious compar-Chinese language, and asks Mr. BEAU-DRY to republish its remarks. The German is the least useful language one could be possibly possessed of in active life in this country, for the reason that Germans readily acquire the English on their arrival here. Practically, the Chinese tongue would be infinitely more valuable in the commercial and racial relations now springing up on this side of the Continent.

This is what the little ring organ reinsults German born citizens by styling "decorous argument."

The indications are that the rush for Panamint will commence early in the Spring and continue until that section of the country is alive with miners. All our reports from that locality are of the most flattering character and it is the opinion of old miners that Panamint will prove a second Comstock. A large quantity of freight is going forward and men of experience in silver mining are investing immense sums in machinery intended to reduce the ore from the hundreds of rich ledges already discovered and many of them partially developed. Yesterday a number of gentlemen left this city for Panamint, where they will court the fickle goddess, Fortune. There is no doubt but that Panamint will become a great mining center and what is better still, its mines will be the inducement that will bring the energy and money that will discover and develop hundreds of ledges now

We regret to see the Express losing its temper. It is a fact well understood in this city that Mr. TIFFANY is the chosen candidate of the ring for Mayor, and all understand that the personal attacks on Mr. BEAUDRY which fill the columns of the Express are prompted by the zeal of that paper to serve the ring to which, it to all intents and purposes, belongs. An Unpopular Appointment. In the appointment of Dr. BENTLEY to the Superintendency of the Napa Insane Asylum Governor BOOTH has exposed himself to the suspicion of using his executive power for political preferment. > ONE of the heaviest blows yet received by the "Southern outrage" manufacturers was dealt by the New York Sun. The Republic stated that the United States mail train running between Livingston and Demopolis lare valleys with regard to irrigation, was stopped and robbed by one hundred armed men on October fifth. The Sun offers three little facts which entirely annihilates the Republic's story: First, there is no railroad connecting the two towns named and consequently no mail train; second, the mail train between Livingston and Demopolis is carried by a negro on a mule, and, third, that on Monday, October 5th, the mule was indisposed and in consequence no trip was made.

The third race, for \$600, one and one half miles, was won by Shylock by three lengths; time, 2:38. The horse B. F. Carver and his owner and jockey have been ruled off the track on account of the jockey pulling the horse in the last race. The last race was a grand steeple-chase for a purse of \$800, about two and one-half miles. This was the most interesting of the day. There were thirteen entries, including Trouble and Monstone, the favorites, against Green's Harry Booth, Ayres' Blind Tom and Davalo and Lorillard's Resolute and Austrian, Little Mary Clark, Tully's Vesuvius and Cattanack's Impecunious. It seemed at one recommends the use of the ecraseur, time that there was imminent danger of their colliding with the street car and making kindling wood of it, but the horses, mindful of their good training in clearing obstructions, turned out upon reaching the car and left it unharmed. There was a general scattering of the occupants, however, for a place of safety. These runaways of freighting teams are becoming periodical occurrences and it is time that the hitching-post ordinance was brought into requisition with the drivers of such outfits. These trucks are so large and heavy that when are so large and heavy that when pulled through streets by a span of frightened horses at their best speed, they carry utter destruction to any-thing with which they may come in contact. If our fears do not mislead us, we shall yet have to record some terrible accident as a result of one of these runaways.

Engineer Crawford, who is making the survey for the Los Angeles and Independence Railroad, writes as follows to a cotemporary from San Bernardino: "We are now camped upon the summit of the Ca-jon, about thirty-one miles northwest of this place. The weather has been cold, and the snow among the pines reaches down close to our camp. We have game in the greatest profusion— started six deer and a bear yesterday; two of the deer passed within one hundred feet of the instrument, but unfortunately all our arms were in camp.
The bear was encountered by two of
the boys in the brush, at close quarters, and in a far shorter time than it
takes to write it his bearship was monarch of all he surveyed, as the boys fled incontinently. There are at present en route to this county for settlement several families, who are brought hither through the influence of his letters and many more families are making arrangement to come. He has sent letters and HERALD pamphlets to nearly every State and Territory of the Union. Not only does he labor to bring other people to this county, but he shows his faith by his works in building up the county and anyancing home enterprises.
This is demonstrated by the artesian wells he has dug, the flocks of sheep he has cared for, (and which, by the way, he says pay better than money loaned at four per cent. interest per month, and the orchards he has planted. He has been engaged in the culture of semi-tropical fruit trees ever since he came to the county, and is now one of the prominent stockholders and Director in the Co-operative Nursery and Fruit Company and an equal partner in the firm of T. A. Garey & is also making arrangements to secure lands for planting one of the largest orchards in Southern California, of not less than 50,000 trees, the particulars of which will be given to the public as soon as the plans are perfected. A few more such men and a few less of the two and three per cent. per month men and Los Angeles county would be much better off.

The Theatre.

The benefit given at Turn-Verein Hall last night to Louis Belmour, the popular actor of the Florence Kent Troupe, drew forth a fair audience but not so large as the merits of the entertainment deserved. The programme included the "Duel in the Snow" followed by the Sketch of Old Black Joe, songs and dances by Miss Lulu Wilson and a side-splitting farce entitled "Beautiful Forever."

EDITOR HERALD: I see an article in the Express of Monday, November 2d, headed "A Rare and Successful Operation," upon which I would offer out their Spring and Summer stock at a few remarks. The operation is not nearly as rare as the case of a natural hypertrophy, the operation being frequently resorted to for cancer and other diseases of the tongue.
